## PUZZLE TEST

### ***COMPARISON BASED PROBLEMS***

In such type of questions, clues are given regarding comparisons among a set of persons or things with respect to one or more qualities. The candidate is required to analyse the whole information, from a proper ascending/descending sequence and then answer the given questions accordingly.

Read the following information and answer the questions given below it:

There are five friends Sachin, Kunal, Mohit, Anuj and Rohan. Sachin is shorter than Kunal but taller

than Rohan. Mohit is tallest. Anuj is a little shorter than Kunal and a little taller than Sachin.

1. Who is the shortest?

- (a) Rohan                      (b) Sachin                      (c) Anuj
- (d) Kunal                      (e) None of these

2. If they stand in the order of their heights, who will be in the middle?

- (a) Kunal                      (b) Rohan                      (c) Sachin
- (d) Anuj                      (e) None of these

3. If they stand in the order of increasing heights, who will be the second?

- (a) Anuj                      (b) Sachin                      (c) Rohan
- (d) Kunal                      (e) None of these

4. Who is the second tallest?

- (a) Sachin                      (b) Kunal                      (c) Anuj
- (d) Rohan                      (e) None of these

5. Who is taller than Anuj but shorter than Mohit?

- (a) Kunal                      (b) Rohan                      (c) Sachin  
(d) Date Inadequate                      (e) None

Solution:

Let us denote the five boys by the first letter of their names, namely S, K, M, A and R.

Then ,  $R < S < K < M$  and  $S < A < K$

$$R < S < A < K < M$$

Answer for 1st question is (a), Rohan is shortest.

Answer for 2nd question is (d), Anuj is in the middle.

Answer for 3rd question is (b), In the order of increasing heights i.e shortest to tallest, Sachin is second.

Answer for 4th question is (b). Kunal is second tallest.

Answer for 5th question is (a), Kunal is taller than Anuj but shorter than Mohit.

Read the information given below and answer the questions that follow:

- (1) There is a group of five girls.
- (2) Kamini is second in height but younger than Rupa.
- (3) Pooja is taller than Monika but younger in age.
- (4) Rupa and Monika are of the same age but Rupa is tallest between them.

(5) Neelam is taller than Pooja and elder to Rupa.

6. If they are arranged in the ascending order of heights, who will be in the third position?

- (a) Monika                      (b) Rupa                      (c) Monika or Rupa  
(d) Data Inadequate              (e) None of these

7. If they are arranged in the descending order of their ages, who will be in the fourth position?

- (a) Monika or Rupa              (b) Kamini or Monika              (c) Pooja  
(d) Data Inadequate              (e) None of these

8. To answer the question "who is the youngest person in the group", which of the given statements is superfluous?

- (a) Only (1)                      (b) Only (2)                      (c) Only (5)  
(d) either (1) or (4)              (e) None

**Solution :**

We first find the sequence of heights

by (3) we have :  $M < P$

by (5) we have :  $P < N$

Now, Rupa is tallest and kamini is second in height.

So the sequence of heights is :  $M < P < N < K < R$ .

Now, we determine the age sequence

by (2) we have :  $K < R$ .

by (3) we have :  $P < M$ .

by (4) we have :  $R = M$ .

by (5) we have :  $R < N$ .

So the sequence of ages is:  $N < R = M < K < P$  or  $N < R = M < P < K$ .

Answer for 6th question is (e), in the increasing order of heights, Neelam is in third position.

Answer for 7th question is (e), in the descending order of ages, Neelam will be in fourth position (because Monika and Rupa both lie at third position).

Answer for 8th question is (a), Only statement (1) is not necessary.

#### EXERCISE

1. Compare the knowledge of persons X, Y, Z, A, B and C in relation to each other.

1. X knows more than A.

1. Y knows as much as B.

3. Z knows less than C.

4. A knows more than Y.

The best knowledge person amongst all is:

- (a) X                      (b) Y                      (c) A  
(d) C

Answer is (a), Clearly, we have :  $A < X$ ,  $Y = B$ ,  $Z < C$ ,  $Z < B$ ,  $Y < A$

thus the sequence becomes  $X > A > Y = B > C > Z$ .

So, X is the best knowledgeable person.

2. Five children were administered psychological tests to know their intellectual levels. In the report, psychologists pointed out that the child A is less intelligent than the child B. The child C is less intelligent than the child D. The child B is less intelligent than the child C and child A is more intelligent than child E.

Which child is most intelligent?

- (a) A                      (b) B                      (c) D  
(d) E                      (e) None of these

Answer is (c), we have  $A < B$ ,  $C < D$ ,  $B < C$  and  $E < A$ .

So, the sequence becomes:  $E < A < B < C < D$ .

Clearly, child D is most intelligent.

3. In an examination, Raj got more marks than Mukesh but not as many as Priya. Priya got more marks than Dinesh and Kamal. Dinesh got less marks than Mukesh but his marks are not the lowest in the group. Who is the second in the descending order of marks?

- (a) Priya                      (b) Kamal                      (c) Raj  
(d) Cannot be determine                      (e) None of these

Answer is (c)

In terms of marks obtained

Mukesh < Raj, Raj < Priya, Dinesh < Priya, Kamal < Priya, Dinesh < Mukesh.

Since Dinesh marks are not the lowest, so Kamal's marks are the lowest.

So, the sequence becomes: Kamal < Dinesh < Mukesh < Raj < Priya.

Clearly, in the descending order, Raj comes second.

Read the following information carefully and answer the questions given below it:

- (A) Gopal is shorter than Ashok but taller than Kunal.  
(B) Navin is shorter than Kunal.  
(C) Jayesh is taller than Navin.  
(D) Ashok is taller than Jayesh.

4. Who among them is the tallest?

- (a) Gopal                      (b) Ashok                      (c) Kunal  
(d) Navin                      (e) Jayesh

5. Which of the given information is not necessary to answer the above question?

- (a) A                      (b) B                      (c) C                      (d) D

(e) None of these

Solution for 4th and 5th questions.

In terms of height we have : Gopal < Ashok, Kunal < Gopal, Navin < Kunal,

Navin < Jayesh, Jayesh < Ashok.

So, the sequence becomes: Navin < Kunal < Gopal < Jayesh < Ashok.

Answer for 4th question is (b), Clearly, Ashok is tallest.

Answer for 5th question is (c), Clearly, statement C is not necessary.

6. B is twice as old as A but twice younger than F.

C is half the age of A but twice the age of D.

Which two persons from the pair of oldest and youngest?

- (a) F and A                      (b) F and D                      (c) B and F  
(d) F and C                      (e) None of these

Answer is (b)

Let's A's age be  $x$ , then B's age is  $2x$ . B is twice younger than F i.e.,

F is twice older than B. So, F's age is  $4x$ . C is half the age of A i.e.,

C's age is  $x/2$ . C is twice the age of D i.e., D is half the age of C i.e.,

D's age is  $x/4$ . So, the descending order of ages is F, B, A, C, D.

Clearly, F is the oldest and D is the youngest.

Directions (questions 7 to 11) Read the following information and answer

the questions given below it:

(1) Seven students P, Q, R, S, T, U and v take a series of tests.

(2) No two students get similar marks.

(3) V always scores more than P.

(4) P always scores more than Q.

(5) Each time either R scores the highest and t gets the least or alternatively S scores the highest and U or Q scores the least.

7. If S is ranked sixth and Q is ranked fifth, which of the following can be true?

(a) V is ranked first or fourth  
third

(b) R is ranked second or

(c) P is ranked second or fifth  
fourth

(d) U is ranked third or

(e) T is ranked fourth or fifth.

8. If R gets more, V should be ranked not lower than:

(a) second

(b) third

(c) fourth

(d) fifth

(e) sixth

9. If R is ranked second and Q is ranked fifth, which of the following must

be true?

(a) S is ranked third

(b) T is ranked sixth

(c) P is ranked sixth

(d) V is ranked fourth

(e) U is ranked sixth

10. If S is ranked second, which of the following can be true?

- (a) U gets more than V
- (b) V gets more than S
- (c) P gets more than R
- (d) P gets more than V
- (e) T gets more than Q

11. If V is ranked fifth, which of the following must be true?

- (a) S scores the highest
- (b) R is ranked second
- (c) T is ranked third
- (d) Q is ranked fourth
- (e) U scores the least

Solution for 7th to 11th :

In terms of scores we have :

$$V > P, P > Q \text{ i.e } V > P > Q.$$

If R scores the highest, we have  $R > \text{-----} > T$ .

If S scores the highest, we have  $S > \text{-----} > Q$

or  $S > \text{-----} > U$ .

Answer for 7th question is (d), If S is ranked sixth and Q is ranked fifth, we have

$$\_ > \_ > \_ > \_ > Q > S > \_$$

In this case, R will rank the highest and thus T will rank the least. we have

$$R > \_ > \_ > \_ > Q > S > T$$

Also, the order  $V > P > Q$  will be maintained i.e V and P will have second,

third or fourth places. So, statements (a), (b), (c), (e) cannot follow.

Thus (d) is the answer.

Answer for 8th question is (c), Again, if R ranks most, T ranks lowest

and occupies seventh place. Since V always ranks above P and Q so in the maximum, P and Q will occupy fifth and sixth places. Thus, V will not rank lower than fourth.

Answer for 9th question is (b), If R is ranked second, S will rank first

and Q and U lowest. But Q ranks fifth. So, U ranks lowest. Also, the order

$V > P > Q$  will be followed.

So, the arrangement will be  $S > R > V > P > Q > \_$  U. Thus, the sixth place

will be occupied by T.

Answer for 10th question is (a), If S ranks second, R ranks first and T

ranks lowest. The order  $V > P > Q$  will be followed. So, the arrangement

will be  $R > S > \_ > \_ > \_ > \_ > T$ .

Clearly, statements (b), (c), (d) and (e) cannot follow. so the answer is

(a).

Answer for 11th question is (a), If V ranks fifth, P and Q coming before it

will occupy sixth and seventh places respectively i.e Q ranks least. So,

S will score the highest.

Directions ( questions 12 to 16 ): Read the following information carefully and answer the questions given below :

- (1)A, B, C, D and E are five friends.
- (2)B is elder to E, but not as tall as C.
- (3)C is younger to A, and is taller to D and E.
- (4)A is taller to D, But younger to E.
- (5)D is elder to A but is shorter in the group.

12. Who among the following is the eldest?

- (a) A                      (b) B                      (c) C
- (d) D                      (e) None of these

13. Which of the following pairs of students is elder to D?

- (a) BA                      (b) BC                      (c) BE
- (d) EA                      (e) None of these

14. Which of the following statements is correct about B?

- (1)B is not the tallest                      (2) B is shorter to E
- (3)When they are asked to stand in ascending order with respect to their heights,B is in the middle.
- (a) Only (1) is correct                      (b) Only (1) and (3) are correct
- (c)All are correct                      (d) All are incorrect
- (e) None of these

15. If F, another friend is taller than C, how many of them will be

between F and E according to their height?

- (a) None                                      (b) One                                      (c) Two  
(d) Three                                      (e) None of these

16. If a selection is to be made among them who would be relatively older and also taller, who among them should be chosen?

- (a) A                                      (b) B                                      (c) C                                      (d) D  
e) E

Solutions for 12th to 16th :

In terms of age we have:

$$E < B, C < A, A < E, A < D$$

$$\text{So, we have } C < A < E < B, A < D.$$

In terms of height we have

$$B < C, D < C, E < C, D < A.$$

Answer for 12th question is (e) : Either B or D is the eldest.

Answer for 13th question is (e) : It cannot be determined for sure.

Answer for 14th question is (a) : B is shorter than C, so B is not the tallest.

Thus (1) is correct. B and E are shorter than C. So, it cannot be concluded that B is shorter to E. Thus (2) is incorrect.

A single definite order of heights cannot be obtained from the

given information. So (3) is incorrect.

Answer for 15th question is (e) : Since no definite order of height can be obtained. So it cannot be determined for sure how many persons

lie between F and E.

Answer for 16th question is (b) : A and C are youngest so they cannot be selected.

D is shorter than two persons A and C.

B is shorter than C only and is only relatively order. So, B will be selected.

E is younger than B.

Directions ( questions 17 to 20 ) : Read the following information given below and answer the questions that follow:

$A * B$  means A and B are the same age.

$A - B$  means B is younger than A.

$A + B$  means A is younger than B.

17. Sachin \* Madan - Reena means

- (a) Reena is youngest                      (b) Reena is the oldest
- (c) Madan is younger than Reena
- (d) None of these

18.  $X+Y+Z$  is same as

- (a)  $Y-X-Z$                       (b)  $Z-Y-X$                       (c)  $Z-X-Y$
- (d) None of these

19. For an expression Farha-Fardina-Arif which of the following cannot

be correct under any circumstances?

- (a) Arif is father of Farha.
- (b) Arif is the younger brother of Farha.
- (c) Farha is the mother of both Arif and Fardina.
- (d) None of these

20. Deven-Shashi\*Hemant is opposite to

- (1) Hemant+Shashi+Deven                      (2) Hemant-Shashi+Deven
- (3) Shashi\*Hemant+Deven
- (a) (1) only                      (b) (1) and (2) only                      (c) (2) and (3) only
- (d) None of these

Solution for 17th to 20th :

Answer for 17th question is (a) : Sachin\*Madan-Reena means Sachin and Madan are of the same age and Reena is younger than Madan. This means that Reena is the youngest.

Answer for 18th question is (b) : X+Y+Z means X is younger than Y and Y is younger than Z. This can also be written as Z-Y-X.

Answer for 19th question is (a) : Farha-Fardina-Arif means Fardina is younger than Farha and Arif is younger than Fardina. This means that Arif is younger than Farha. So, Arif cannot be the father of Farha.

Answer for 20th question is (d) : Deven-Shashi\*Hemant means Shashi is younger than Deven and Shashi and Hemant are of the same age. Thus Deven is the oldest.

Now, the opposite statements would mean : Deven is the youngest.

(1) Hemant+Shashi+Deven means Hemant is younger than Shashi, who is younger than Deven. So, Deven is the oldest.

(2) Hemant-Shashi+Deven means Shashi is younger than both Hemant and Deven. Thus either Hemant or Deven is the oldest, but Deven is not the youngest.

(3) Shashi\*Hemant+Deven means Shashi and Hemant are of the same age and Hemant is younger than Deven. So, Deven is the oldest.

## **PROBLEMS ON SEATING ARRANGEMENT**

### **SEATING ARRANGEMENTS**

In this type of questions, some clues regarding seating or placing (linear/ circular) of some persons or items is given.

The candidate is required to form the proper sequence using these clues and answer the questions accordingly.

1) Read the following information carefully and answer the questions given below:

Six persons A,B,C,D,E and F are sitting in two rows, three in each.

E is not at the end of any row

D is second to the left of F.

C the neighbour of E, is sitting diagonally opposite to D.

B is the neighbour of F

1. Which of the following are sitting diagonally opposite to each other?

(a) F and C      (b) D and A      (c) A and C      (d) A and F      (e) A and B

2. Who is facing B?

(a) A      (b) C      (c) D      (d) E      (e) F

3. Which of the following are in same row?

(a) A and E      (b) E and D      (c) C and B      (d) A and B      (e) C and E

4. Which of the following are in one of the two rows?

(a) FBC      (b) CEB      (c) DBF      (d) AEF      (e) ABF

5. After interchanging seat with E, who will be the neighbours of D in the new position?

(a) C and A    (b) F and B    (c) only B    (d) only A    (e) only C

Solution :

The given information can be analysed as follows :

E is not at end so, E must be in the middle of one of the rows.

D is second to the left of F so, order of rows must be D\_F.

C is neighbour of E and is sitting diagonally opposite to D means

C is under F in the other row i.e D \_ F \_ E C.

B is neighbour of F, s the arrangement must be D B F A E C.

1. Other than D and C, A and F are sitting diagonally opposite to each other, as seen in the arrangement. So the answer is (d).

2. Clearly, E is opposite to B in the other row . So ,E is facing B and

the answer is (d).

3. Clearly, from amongst the given alternatives, A and E are in the same

row .So the answer is (d).

4. Clearly, from amongst the given alternatives, D,B and F are in the same row. So, the answer is (c).

5. Clearly, neighbours of E are A and C. So, on interchanging the seat with E, the new neighbours of D will be A and C. So the answer is (a).

2) Eight books are kept one over the other counting from the top the second,

fifth and sixth books are on plays. Two books on plays are between two

books on composition. One book of plays is between two books on poetry.

While the book at the top of the book of literature is a book of composition .Which book is fourth from the top?

(a) plays (b) poetry (c) composition (d) literature

Solution :

We analyse the given information as follows :

Let C denote 'composition' , P denote 'plays' , Po denote 'poetry' and

L denote 'literature'.

1	2	3	4	5	6	7	8
—	P	—	—	P	P	—	—
—	—	—	C	P	P	C	—
Po	P	Po	—	—	—	—	—
—	—	—	—	—	—	C	L

So the arrangement becomes:

1	2	3	4	5	6	7	8
Po	P	Po	C	P	P	C	L

Clearly the fourth book from the top is on composition. So the answer is (c).

3) Read the following information and answer the questions that follows.

(1) Six friends A, B, C, D, E and F are sitting in a closed circle facing

the center.

(2) E is to the left of D.

(3) C is between A and B.

(4) F is between E and A.

1. Who is to the left of B?

(a) A    (b) C    (c) D    (d) E    (e) none of these

2. Who is to the right of C?

(a) A    (b) B    (c) D    (d) E    (e) F

3. Which of the above given statements is superfluous?

- (a) 1      (b) 2      (c) 3      (d) 4      (e) none of these

Solution :

Clearly, in the circle this arrangement is as shown

1. Clearly, D is the left of B. so the answer is (c).

2. Clearly, A is to the right of C. so the answer is (a).

3. Since all the statements are necessary to determine the arrangement none of them is superfluous. so the answer is (e).

#### EXERCISE

1. Four girls are sitting on a bench to be photographed. Shikha is to the left of Reena.

Manju is to the right of Reena. Rita is between Reena and Manju.

Who would be second from the left in the photograph?

(a) Reena      (b) Shikha      (c) Manju      (d) Rita

Answer is (d)

Shikha is to the left of Reena and Manju is to her right.

Rita is between Reena and Manju.

So the order is Shikha ,

Reena , Rita and Manju. In the photograph Rita will be second from left.

2. There are five different houses, A to E in a row. A is to the right of B and E is to the left of C and right of A. B is to the right of D.

Which of the houses is in the middle?

(a) A              (b) B              (c) D              (d) E

Answer is (a)

B is to the right of D. A is to the right of B. E is to the right of A

and left of C. So the order is D, B, A, E, C . Clearly A is in the middle.

3. In a march past , seven persons are standing in a row. Q is standing

left to R but right to P. O is standing right to N and left to P.

Similarly , S is standing right to R and left to T. Find out who is

standing in middle?

- (a) P                      (b) Q                      (c) R                      (d) O

Answer is (b)

Q is left to R and to the right of P i.e P, Q, R.

O is to the right of N and left of P i.e N, O, P.

S is to the right of R and left of T i.e R, S, T.

Clearly , Q is in the middle.

4. Five children are sitting in a row. S is sitting next to P but not T. is sitting next to R who is sitting on extreme left and T is not sitting next to K. Who are sitting adjacent to S?

- (a) K and P    (b) R and P    (c) only C    (d) P and T    (e) Insufficient Information

Answer is (d)

S is sitting next to P. So, the order S, P or P, S is followed. is

sitting next to R. So, the order R, K is followed because R is on the extreme

left. T is not next to P or K.

So, the arrangement will be R, K, P, S, T.

Clearly, P and T are sitting adjacent to S.

5. Five girls are sitting in a row, Rashi is not adjacent to Sulekha or Abha. Anuradha is not adjacent to Sulekha. Rashi is adjacent to Monika. Monika is at the middle in the row. Then, Anuradha is adjacent to whom out of the following ?

(a) Rashi      (b) Sulekha      (c) Abha      (d) Monika      (e) Cannot be determined

Answer is (a)

Clearly, the order is

Anuradha, Rashi, Monika, Abha. Anuradha is adjacent to Rashi

Read the following information carefully and answer the questions given below it:

- (A) There are five friends
- (B) They are standing in a row facing south.
- (C) Jayesh is to the immediate right to Alok.
- (D) Pramod is between Bhagat and Subodh.
- (E) Subodh is between Jayesh and Pramod.

6. Who is at the extreme left end?

- (a) Alok                      (b) Bhagat                      (c) Subodh                      (d) Data  
Inadequate
- (e) None of these

7. Who is in the middle?

- (a) Bhagat      (b) Jayesh      (c) Pramod      (d) Subodh      (e) Alok

Solution:

The boys are standing facing south. So, consider left and right accordingly.

Jayesh is to the right of Alok i.e. Jayesh, Alok.

Pramod is between Bhagat and Subodh i.e. Bhagat, Pramod, Subodh

Subodh is between Jayesh and Pramod.

So, the sequence is

	Bhagat	Pramod	Subodh	Jayesh
Alok				

Answer for 6th question is (a), Alok is at extreme left end.

Answer for 7th question is (d), Subodh is in the middle.

Study the given information carefully and answer the questions that follows.

(1) A, B, C, D, E, F and G are sitting on a wall and all of them are facing east.

(2) C is on the immediate right to D.

(3) B is at an extreme end and has E as his neighbour.

(4) G is between E and F.

(5) D is sitting third from the south end.

8. Who is sitting to the right of E?

- (a) A                      (b) C                      (c) D                      (d) F                      (e) None of these

9. Which of the following pairs of people are sitting at the extreme ends?

- (a) AB                      (b) AE                      (c) CB                      (d) FB                      (e) Cannot be determined

10. Name the person who should change places with C such that he gets the third

place from the north end?

- (a) E                      (b) F                      (c) C                      (d) D

11. Immediately between which of the following pairs of people is sitting?

- (a) AC                      (b) AF                      (c) CE                      (d) CF                      (E) None of these

Solution:

C is to the right of D.

D is third from south.

So, B will be at the extreme end from north because it should have E as its neighbour.

G is between E and F. So, the sequence is

B->

E->

G->

F->                      East

D->

C->

A->

Answer for 8th question is (e), G is sitting to the right of E.

Answer for 9th question is (a), A and B are sitting at the extreme ends.

Answer for 10th question is (c), G should change place with C to make it third from north.

Answer for 11th question is (d), D is sitting between C and F.

12. In the Olympic games, the flags of six nations were flown on the masts in

the following way:

The flag of America was to the left of Indian tricolor and to the right of the flag of France. The flag of Australia was on the right of the Indian flag but was to the left of the flag of Japan, which was to the left of the flag of China. Find the two flags which are in the center.

(a) India and Australia

(b) America and India

(c) Japan and Australia

(d) America and Australia

Solution:

The correct sequence is

France, America, India, Australia, Japan, China.

The two flags in the center are India and Australia.

13. Mr A, Miss B, Mr C and Miss D are sitting around a table and discussing

their trades.

(1) Mr A sits opposite to cook.

(2) Miss B sits right to the barber.

(3) The washer man is on the left of the tailor.

(4) Miss D sits opposite to Mr C.

What are the trades of A and B?

(a) Tailor and Barber

(b) Tailor and Cook

(c) Barber and Cook

(d) Washer man and Cook.

Solution : (b)

C and D sit opposite to each other .So if A sits opposite to cook, B shall be cook.

Now B is to the right of barber. So, one of the rest say C will be barber, then D on the opposite side shall be washer man or tailor. But washer man is left of tailor and D is to the left of A. So, D is washer man and A is tailor. Thus , A and B are Tailor and Cook.

On the information given below, answer the questions.

(A) P, Q, R, S and T are sitting in a circle facing the center.

(B) R is immediate left of T.

(C) P is between S and T.

14. Who is to the immediate left of R?

(a) P                      (b) Q                      (c) S                      (d) T                      (e) cannot be  
determine

15. To find the answer to the above question, which of the following  
statements

can be dispensed with?

(a) None                      (b) B only                      (c) C only                      (d) B or  
C only

Solution: Solution for 14th and 15th questions are

In the circle the arrangement is as shown:

P  
S                      T  
Q                      R

Answer for 14th question is (b), Q is to the immediate left of R.

Answer for 15th question is (a), All the statements are necessary.

16. Six friends A, B, C, D, E and F are sitting in a closed circle  
facing the center.

A is facing D. C is between A and B. F is between E and A. Who is to  
the  
immediate left of B?

(a) A                      (b) C                      (c) D                      (d) E

Answer is (b)

Clearly, in a circle the arrangement is as shown:

So, C is to the immediate left of B.

A, B, C, D, E and F are seated in a circle facing the center. C is between F and B.

A is second to the left of D and second to the right of E.

17. Who is facing A?

- (a) B            (b) D            (c) F            (d) either F or B            (e) None

18. Who among the following is facing D?

- (a) A            (b) C            (c) E            (d) cannot be determine            (e) None

Solution: Solution for 17th and 18th questions is

The circular arrangement is as shown

Answer for 17th question is (a), Clearly B is facing A.

Answer for 18th question is (b), C is facing D.

Eight friends A, B, C, D, E, F, G and H are sitting in circle facing the center.

B is sitting between G and D. H is third to the left of B and second to the right of A.

C is sitting between A and G and B and E are not sitting opposite to each other.

19. Who is third to the left of D?

- (a) A      (b) E      (c) F      (d) cannot be determine      (e) None

20. Which of the following statements is not correct?

- (a) C is third to the right of D.  
(b) A is sitting between C and F.  
(c) D and A are sitting opposite to each other.  
(d) E is sitting between F and D.  
(e) E and C are sitting opposite to each other

Solution: Solution for 19th and 20th question is

B is between G and D i.e the order is G B D. H is third to the left of B and second to the right of A. So, forming a circle we have:

H                      A  
G                      D  
                    B

C is between A and G. But E is not opposite B. So, C is between A and H.

                    C  
                    H                      A  
F                      E  
                    G                      D  
                    B

Answer for 19th question is (c) , F is third to the left of D.

Answer for 20th question is (d), Clearly, E is not sitting between F and D.

21. A group of eight members sit in a circle. D is between A and F and is opposite to G. E is to the right of A but on the left of C, whose right hand neighbour is G. B enjoys having H to his left and F to his right. Find the members who is diagonally opposite to A?

- (a) B      (b) F      (c) G      (d) H

Answer for 21st question is (d)

In a circle the arrangement is as shown

                    G  
                    H                      C  
B                      E  
                    F                      A  
                    D

H is diagonally opposite to A.

## ***FAMILY BASED PROBLEMS***

### **FAMILY BASED QUESTIONS**

In such type of questions, clues are given regarding comparisons among a set of persons or things with respect to one or more qualities.

The candidate is required to analyse the whole information, from a proper ascending/descending sequence and then answer the given questions accordingly.

Read the following information and answer the questions given below it:

There are five friends Sachin, Kunal, Mohit, Anuj and Rohan. Sachin is shorter than Kunal but taller than Rohan. Mohit is tallest. Anuj is a little shorter than Kunal and a little taller than Sachin.

1. Who is the shortest?

(a) Rohan (b) Sachin (c) Anuj (d) Kunal (e) None of these

2. If they stand in the order of their heights, who will be in the middle?

(a) Kunal (b) Rohan (c) Sachin (d) Anuj (e) None of these

3. If they stand in the order of increasing heights, who will be the second?

(a) Anuj (b) Sachin (c) Rohan (d) Kunal (e) None of these

4. Who is the second tallest?

(a) Sachin (b) Kunal (c) Anuj (d) Rohan (e) None of these

5. Who is taller than Anuj but shorter than Mohit?

- (a) Kunal (b) Rohan (c) Sachin (d) Data Inadequate (e) None

Solution:

Let us denote the five boys by the first letter of their names, namely

S, K, M, A and R. Then,  $R < S < K < M$  and  $S < A < K$   
 $R < S < A < K < M$

Answer for 1st question is (a), Rohan is shortest.

Answer for 2nd question is (d), Anuj is in the middle.

Answer for 3rd question is (b), In the order of increasing heights i.e. shortest to tallest, Sachin is second.

Answer for 4th question is (b). Kunal is second tallest.

Answer for 5th question is (a), Kunal is taller than Anuj but shorter than Mohit.

Read the information given below and answer the questions that follow:

- (1) There is a group of five girls.
- (2) Kamini is second in height but younger than Rupa.
- (3) Pooja is taller than Monika but younger in age.
- (4) Rupa and Monika are of the same age but Rupa is tallest between them.
- (5) Neelam is taller than Pooja and elder to Rupa.

6. If they are arranged in the ascending order of heights, who will be

in the third position?

- (a) Monika (b) Rupa (c) Monika or Rupa (d) Data Inadequate  
(e) None of these

7. If they are arranged in the descending order of their ages, who will be in the fourth position?

- (a) Monika or Rupa (b) Kamini or Monika (c) Pooja  
(d) Data Inadequate (e) None of these

8. To answer the question "who is the youngest person in the group", which of the given statements is superfluous?

- (a) Only (1) (b) Only (2) (c) Only (5) (d) either (1) or (4) (e) None

Solution : We first find the sequence of heights

by (3) we have :  $M < P$

by (5) we have :  $P < N$

Now, Rupa is tallest and kamini is second in height.

So the sequence of heights is :  $M < P < N < K < R$ .

Now, we determine the age sequence

by (2) we have :  $K < R$ .

by (3) we have :  $P < M$ .

by (4) we have :  $R = M$ .

by (5) we have :  $R < N$ .

So the sequence of ages is :  $N < R = M < K < P$  or  $N < R = M < P < K$ .

Answer for 6th question is (e), in the increasing order of heights, Neelam is in third position.

Answer for 7th question is (e), in the descending order of ages, Neelam will be in fourth position (because Monika and Rupa both lie at third position).

Answer for 8th question is (a), Only statement (1) is not necessary.

EXERCISE

1. Compare the knowledge of persons X, Y, Z, A, B and C in relation to each other.

1. X knows more than A.

1. Y knows as much as B.

3. Z knows less than C.

4. A knows more than Y.

The best knowledge person amongst all is:

(a) X (b) Y (c) A (d) C

Answer is (a), Clearly, we have :  $A < X$ ,  $Y = B$ ,  $Z < C$ ,  $Z < B$ ,  $Y < A$

thus the sequence becomes  $X > A > Y = B > C > Z$ .

So, X is the best knowledgeable person.

2. Five children were administered psychological tests to know their intellectual levels. In the report, psychologists pointed out that the child A is less

intelligent than the child B. The child C is less intelligent than the

child D. The child B is less intelligent than the child C and child A is more

intelligent than child E. Which child is most intelligent?

(a) A (b) B (c) D (d) E (e) None of these

Answer is (c), we have  $A < B$ ,  $C < D$ ,  $B < C$  and  $E < A$ .

So, the sequence becomes:  $E < A < B < C < D$ .

Clearly, child D is most intelligent.

3. In an examination, Raj got more marks than Mukesh but not as many as Priya.

Priya got more marks than Dinesh and Kamal. Dinesh got less marks than Mukesh

but his marks are not the lowest in the group. Who is the second in the descending order of marks?

(a) Priya (b) Kamal (c) Raj (d) Cannot be determine  
(e) None of these

Answer is (c)

In terms of marks obtained

Mukesh < Raj, Raj < Priya, Dinesh < Priya, Kamal < Priya, Dinesh < Mukesh.

Since Dinesh marks are not the lowest, so Kamal's marks are the lowest.

So, the sequence becomes: Kamal < Dinesh < Mukesh < Raj < Priya.

Clearly, in the descending order, Raj comes second.

Read the following information carefully and answer the questions given below it:

- (A) Gopal is shorter than Ashok but taller than Kunal.
- (B) Navin is shorter than Kunal.
- (C) Jayesh is taller than Navin.
- (D) Ashok is taller than Jayesh.

4. Who among them is the tallest?

- (a) Gopal    (b) Ashok    (c) Kunal    (d) Navin    (e) Jayesh
- <

5. Which of the given information is not necessary to answer the above question?

- (a) A    (b) B    (c) C    (d) D    (e) None of these

Solution for 4th and 5th questions.

In terms of height we have : Gopal < Ashok, Kunal < Gopal, Navin < Kunal,

Navin < Jayesh, Jayesh < Ashok.

So, the sequence becomes: Navin < Kunal < Gopal < Jayesh < Ashok.

Answer for 4th question is (b), Clearly, Ashok is tallest.

Answer for 5th question is (c), Clearly, statement C is not necessary.

6. B is twice as old as A but twice younger than F.

C is half the age of A but twice the age of D.

Which two persons from the pair of oldest and youngest?

(a) F and A (b) F and D (c) B and F (d) F and C (e) None of these

Answer is (b)

Let's A's age be  $x$ , then B's age is  $2x$ . B is twice younger than F i.e F is twice older than B. So, F's age is  $4x$ . C is half the age of A i.e C's age is  $x/2$ . C is twice the age of D i.e D is half the age of C i.e D's age is  $x/4$ . So, the descending order of ages is F, B, A, C, D.

Clearly, F is the oldest and is the youngest.

Directions (questions 7 to 11) Read the following information and answer the questions given below it:

(1) Seven students P, Q, R, S, T, U and V take a series of tests.

(2) No two students get similar marks.

(3) V always scores more than P.

(4) P always scores more than Q.

(5) Each time either R scores the highest and T gets the least or alternatively S scores the highest and U or Q scores the least.

7. If S is ranked sixth and Q is ranked fifth, which of the following can be true?

(a) V is ranked first or fourth (b) R is ranked second or third  
(c) P is ranked second or fifth (d) U is ranked third or fourth  
(e) T is ranked fourth or fifth.

8. If R gets more, V should be ranked not lower than:

(a) second (b) third (c) fourth (d) fifth (e) sixth

9. If R is ranked second and Q is ranked fifth, which of the following must be true?

(a) S is ranked third (b) T is ranked sixth (c) P is ranked sixth  
(d) V is ranked fourth (e) U is ranked sixth

10. If S is ranked second, which of the following can be true?

- (a) U gets more than V    (b) V gets more than S    (c) P gets more than R  
(d) P gets more than V    (e) T gets more than Q

11. If V is ranked fifth, which of the following must be true?

- (a) S scores the highest    (b) R is ranked second    (c) T is ranked third  
(d) Q is ranked fourth    (e) U scores the least

Solution for 7th to 11th :

In terms of scores we have :

$V > P, P > Q$  i.e  $V > P > Q$ .

If R scores the highest, we have  $R > \text{-----} > T$ .

If S scores the highest, we have  $S > \text{-----} > Q$  or  $S > \text{-----} > U$ .

Answer for 7th question is (d), If S is ranked sixth and Q is ranked fifth, we have

$\_ > \_ > \_ > \_ > Q > S > \_$

In this case, R will rank the highest and thus T will rank the least. we have

$R > \_ > \_ > \_ > Q > S > T$

Also, the order  $V > P > Q$  will be maintained i.e V and P will have second, third or

fourth places. So, statements (a), (b), (c), (e) cannot follow. Thus (d) is the answer.

Answer for 8th question is (c), Again, if R ranks most, T ranks lowest and occupies

seventh place. Since V always ranks above P and Q so in the maximum, P and Q will

occupy fifth and sixth places. Thus, V will not rank lower than fourth.

Answer for 9th question is (b), If R is ranked second, S will rank first and

Q and U lowest. But Q ranks fifth. So, U ranks lowest. Also, the order  $V > P > Q$  will be followed.

So, the arrangement will be  $S > R > V > P > Q > \_ > U$ . Thus, the sixth place will be occupied by T.

Answer for 10th question is (a), If S ranks second, R ranks first and T ranks

lowest. The order  $V > P > Q$  will be followed. So, the arrangement will be  $R > S > \_ > \_ > \_ > \_ > T$ .

Clearly, statements (b), (c), (d) and (e) cannot follow. so the answer is (a).

Answer for 11th question is (a), If V ranks fifth, P and Q coming before it will occupy sixth and seventh places respectively i.e Q ranks least. So, S will score the highest.

Directions ( questions 12 to 16 ): Read the following information carefully

and answer the questions given below :

- (1) A, B, C, D and E are five friends.
- (2) B is elder to E, but not as tall as C.
- (3) C is younger to A, and is taller to D and E.
- (4) A is taller to D, But younger to E.
- (5) D is elder to A but is shorter in the group.

12. Who among the following is the eldest?

- (a) A (b) B (c) C (d) D (e) None of these

13. Which of the following pairs of students is elder to D?

- (a) BA (b) BC (c) BE (d) EA (e) None of these

14. Which of the following statements is correct about B?

- (1) B is not the tallest
- (2) B is shorter to E
- (3) When they are asked to stand in ascending order with respect to their

heights, B is in the middle

- (a) Only (1) is correct  
(b) Only (1) and (3) are correct

(c) All are correct

(d) All are incorrect

(e) None of these

15. If F, another friend is taller than C, how many of them will be between F

and E according to their height?

- (a) None (b) One (c) Two (d) Three (e) None of these

16. If a selection is to be made among them who would be relatively older and

also taller, who among them should be chosen?

- (a) A (b) B (c) C (d) D (e) E

Solutions for 12th to 16th :

In terms of age we have:

$E < B, C < A, A < E, A < D$

So, we have  $C < A < E < B, A < D$ .

In terms of height we have

$B < C, D < C, E < C, D < A$ .

Answer for 12th question is (e) :  
Either B or D is the eldest.

Answer for 13th question is (e) :  
It cannot be determined for sure.

Answer for 14th question is (a) :  
B is shorter than C, so B is not the tallest.  
Thus (1) is correct. B and E are shorter than C. So, it cannot be concluded that B is shorter to E. Thus (2) is incorrect. A single definite order of heights cannot be obtained from the given information. So (3) is incorrect.

Answer for 15th question is (e) :  
Since no definite order of height can be obtained.  
So it cannot be determined for sure how many persons lie between F and E.

Answer for 16th question is (b) :  
A and C are youngest so they cannot be selected.  
D is shorter than two persons A and C.  
B is shorter than C only and is only relatively order. So, B will be selected.  
E is younger than B.

Directions ( questions 17 to 20 ) : Read the following information given below  
and answer the questions that follow: A \* B means A and B are the same age.

A - B means B is younger than A.  
A + B means A is younger than B.

17. Sachin \* Madan - Reena means  
(a) Reena is youngest (b) Reena is the oldest  
(c) Madan is younger than Reena (d) None of these

18. X+Y+Z is same as  
(a) Y-X-Z (b) Z-Y-X (c) Z-X-Y (d) None of these

19. For an expression Farha-Fardina-Arif which of the following cannot be correct under any circumstances?  
(a) Arif is father of Farha.  
(b) Arif is the younger brother of Farha.  
(c) Farha is the mother of both Arif and Fardina.  
(d) None of these

20. Deven-Shashi\*Hemant is opposite to  
(1) Hemant+Shashi+Deven (2) Hemant-Shashi+Deven  
(3) Shashi\*Hemant+Deven  
(a) (1) only (b) (1) and (2) only (c) (2) and (3) only  
(d) None of these

Solution for 17th to 20th :  
Answer for 17th question is (a) :  
Sachin\*Madan-Reena means Sachin and Madan are of the same age and Reena is younger than Madan. This means that Reena is the youngest.

Answer for 18th question is (b) :  $X+Y+Z$  means X is younger than Y and Y

is younger than Z. This can also be written as  $Z-Y-X$ .

Answer for 19th question is (a) : Farha-Fardina-Arif means Fardina is younger than

Farha and Arif is younger than Fardina. This means that Arif is younger than Farha.

So, Arif cannot be the father of Farha.

Answer for 20th question is (d) : Deven-Shashi\*Hemant means Shashi is younger than

Deven and Shashi and Hemant are of the same age. Thus Deven is the oldest. Now, the

opposite statements would mean : Deven is the youngest.

(1) Hemant+Shashi+Deven means Hemant is younger than Shashi, who is younger than Deven.

So, Deven is the oldest.

(2) Hemant-Shashi+Deven means Shashi is younger than both Hemant and Deven.

Thus either Hemant or Deven is the oldest, but Deven is not the youngest.

(3) Shashi\*Hemant+Deven means Shashi and Hemant are of the same age and Hemant is

younger than Deven. So, Deven is the oldest.

## Odd man out series

### ***Odd Man out Series***

In this oddman out section we need choose the word or pair that different from remaining words or pairs.

For Example:

1. a, apple      b, mango      c, watermelon      d, guava

**Explanation:**

Here expect 'C' all of other are grow on trees. So watermelon is the odd man here.

#### **Exercise:**

1.            a.iran:asia            b.candera:Australia  
              c.norway:europe            d.algeria:africa

**Ans:** (b)

**explanation:**

In all other pairs ,second is continent to which the country denoted by the first belongs.

2.           a.scapel: surgeon       b. chisel:solder  
             c.awl:cobbler         d.knife:chef

**Ans: (b)**

**explanation:**

In all other pairs ,first is tool used by the second.

3.           a.mulder:proteins         b.curie:radium  
             c.becquerel:radioactivity   d.einstein:television

**Ans: (d)**

**explanation:**

In all other pairs ,first is name of o scientist who discovered the second.

4.           a.sheep:bleat               b.horse:neigh  
             c.ass:grunt           d.owl:hoot

**Ans: (c)**

**explanation:**

In all other pairs second one is the sound made by the first.

5.           a.door:bang                 b.piano:play  
             c.rain:ptler         d.drum:be

**Ans: (b)**

**explanation:**

In all other pairs ,second one is sound made by the first.

6.           a.chandragupta:mouryan   b.bardar:mugal  
             c.krisha:kushan       d.mahavira:jainism

**Ans: (d)**

**Explanation:**

In all other pairs ,second one is the name of the dynasty found by the first.

7.           a.Ammeter:current         b.hygrometer:presure  
             c.odometer:speed       d.seismograph:earthquakes

**Ans: (b)**

**explanation:**

In all oter pairs ,first one is the instrument used to measure the second.

8.           a.solder:tin                 b.haematite:iran  
             c.bauxite:aluminium   d.malachite:copper

**ans: (a)**

**Explanation:**

In all other pairs ,first name of the metal of which the second is an ore.on the other hand ,solder is an alloy.

9.           a.whale:manmal             b.salamander:insect  
             c.snake:reptile       d.frog:pmphibiam

**ans: (b)**

**Explanation:**

In all other pairs ,first one is the animal which is belong to second type.

10.        a. profit:loss                      b. wise:foolish  
             c. virtue:vice                d. seduce:attract

**Ans: (d)**

**Explanation:**

In all the pairs, the words are antonyms to each other.

11.        a. onomatology:names        b. nidology:nests  
             c. phycology:algae        d. concology:shells

**Ans: (d)**

**Explanation:**

In all other pairs first one is the study of the second one.

12.        a. aphid:paper                      b. moth:wool  
             c. termite:wood                d. locust:plant

**Ans: (a)**

**Explanation:**

In all other pair, first one is the insect which damages the second.

13.        a. Deer: flesh                      b. mongoose:snake  
             c. crow: carrion                d. cat:fish

**Ans: (a)**

**Explanation:**

In all other pairs first one feeds on the second.

14.        a. cockroach:antenna              b. lizard:flagella  
             c. hydra: tentacles                d. plasmodium:cilia

**Ans: (b)**

**Explanation:**

In other pairs, second is organ for movement of the first.

15.        a. malaria:protozoa                b. yeast:fungi  
             c. typhoid:bacteria                d. polio

**Ans: (c)**

**Explanation:**

In all other pairs, first disease caused by the second one.

16.        a. Pyrohelimeter:radiation        b. calorimeter:heat  
             c. planimeter:area                d. barometer:humidity

**Ans: (d)**

**Explanation:**

In all other pairs, first is the instrument to measure the second.

17.        a. chaff:wheat                      b. grit:pulses  
             c. grain:crop                      d. dregs:wine

**Ans: (c)**

**Explanation:**

In all other pairs, first is the waste obtained from the second.

18.        a. Broom:sweep                      b. spoon:feed

c. nut:crack                      d.saop:bathe

**Ans: (c)**

**Explanation:**

In all other pairs ,first one is used for purpose of second.

19.      a. proteins:marasmus      b. sodium:rickets  
          c. iodine:gotire          d. iron:anaemia

**Ans: (b)**

**Explanation:**

In all other pairs .second one is the disease caused by the deficiency of the the first.

20.      a. apple:jam                      b. leamon:citrus  
          c. orange:squash              d. tomato:pury

**Ans: (b)**

**Explanation:**

In all other pairs ,second one is the form in which the first is preserved.

21.      a. Cow:fodder                      b. crow:carrion  
          c. poultry:farm                  d. vulture:prey

**Ans: (c)**

**Explanation:**

In all other pairs ,second is the food over which the first feeds.

22.      a. fish:pisciculture      b. birds:horticulture  
          c. bees:apiculture          d. slikworm:sericulture

**Ans: (b)**

**Explanation:**

In all other pairs ,second one the name given to the artifical rearing of the first.

23.      a .backsmith:anvil              b. carpenter:saw  
          c. barber:scissor              d.goldsmith:ornaments  
          e. sculpter:chisel

**Ans: (d)**

**Explanation:**

In all other pairs,second is the tool used by the first.

24.      a. cow:calf                      b. dog: bitch  
          c. lion:cub                      d. tortoise:turtle  
          e. insect:larva

**Ans: (b)**

**Explanation:**

In all other pairs second onis young of the first.

25.      a. sprinkle:four              b. happies:merrient  
          c. mist:fog                      d. sad:unhappy

**Ans: (d)**

**Explanation:**

In all other pairs ,second one is the higher intensity than the first.

26.      a. chia:beiling                  b. russia:moscow

c. japan:singapore    d. spain: madrid

**Ans: (c)**

**Explanation:**

In all other pairs second one is the capital of the first.

27.    a.daring:timid            b. beautiful:pretty  
      c. clear:vague        d. youth:adult

**Ans: (b)**

**Explanation:**

In all other pairs ,second one is the antonym of the first.

28.    a.fish:shoal                b. cow:herd  
      c. sheep:flock        d. man:mod

**Ans: (d)**

**Explanation:**

In all other pairs ,second one is the collective group of the first.

29.    a.Lion:roar                b. snake:hiss  
      c. bees:hum            d. frog:bleat

**Ans: (d)**

**Explanation:**

In all other pairs second one is the noise produced by the first.

30.    a.Farmer:plough            b. butcher:chopper  
      c. author: book        d. jockey:tack

**Ans: (c)**

**Explanation:**

In all other pairs ,second on is the tool used by first one.

31.    a.steel:utensils            b. bronze:statue  
      c. duralumin:aircraft    d. iron:rails

**Ans: (d)**

**Explanation:**

In all other pairs .first is the alloy used to make the second.

32.    a. flurry:blizzard            b. moisten:drench  
      c. prick:stab            d. scrub:polish

**Ans: (a)**

**Explanation:**

In all other pairs, second is higher intensity than first.

33.    a.needle:prick            b. gun:fire  
      c. auger:bore        d. chisel:carve

**Ans: (a)**

**Explanation:**

In all other pairs ,second is the action of the first.

34.    a.twigs:nest                b. wood:furniture  
      c.picture:pottery        d.gold:ornaments

**Ans: (c)**

**Explanation:**

In all other pairs ,first one is the material made by the second.

35.     a.donald:comdy                      b.holmes:suspense  
         c. premchand:novel                d.rodinson:adventure

**Ans: (c)**

**Explanation:**

In all other pairs ,first character which is famous for the second one.

36.     a.petican:reptile                      b.gnu:antelpoe  
         c.elk:deer                              d.shark:fish

**Ans: (a)**

**Explanation:**

In all other pairs ,first one is the type of second.

37.     a.beans:pluse                              b. rice:cercals  
         c.tea:beverage:                        d.legumes:nodules

**Ans: (d)**

**Explanation:**

In all other pairs ,second denotes the the class to which the first belongs.

38.     a.avesta:parsi                              b.torah:jew  
         c.tripitake:buddhist                      d. temple:hindu

**Ans: (d)**

**Explanation:**

In all other pairs ,first is the religion book of the second .

39.     a.housband:wife                              b. lion:fox  
         c.dog : cat                                  d.king : minister

**Ans: (d)**

**Explanation:**

In all other pairs ,first is masculine ,while the second one is feminine.

40.     a. ornithology : birds                      b. mycology : fungi  
         c. phycology : algae  
         d.entomology : insects  
         e. biology : botany

**Ans: (e)**

**Explanation:**

In all other pairs ,first is the study of the second.

41.     a.microscope                                  b.telescope  
         c.periscope                                  d.stethoscope

**Ans: (d)**

**Explanation:**

Except stethoscope all other are optical instruments.

42.     a. almrah    b. rack  
         c. safe    d. cupboard

**Ans: (d)**

**Explanation:**

Except cupboard, all other are closed one.

43.      a. rial                              b. kneset  
            c. guilder                      d. drachma

**Ans: (b)**

**Explanation:**

Except this all other are names of currencies.

44.      a. resume                              b. admit  
            c. confess                          d. depend

**Ans: (d)**

## **COMPREHENSION**

### COMPREHENSION

The word 'comprehend' means 'to understand'. You are required to go through a passage, grasp its gist, and then answer the questions based on it. It involves the use of your vocabulary, the ability to locate meanings, your intelligence to assess the real spirit of the passage and infer conclusions from the given content.

Answers must be based on and confirmed by the information given in the passage and not by any outside source.

The words information, elimination, and inference may be used as the main keys.

IEI FORMULA:

**INFORMATION :**

Every passage offers you some information. Some questions are straight forward and they may be answered from the information within the passage itself. The information in the passage may

**ELIMINATION :**

Elimination is saying no to alternatives on justifiable grounds until you have a positive answer. Usually, questions of the 'true' or 'false' category can be answered by this process of elimination.

**INFERENCE :**

The word 'inference' means to arrive at a logical conclusion. Some questions which can't be answered by information or elimination require the process of inference. Inference may be either simple or complex

By IEI Formula:

Passage 1:

Work expands so as to fill the time available for its completion. The general recognition of this fact is shown in the proverbial phrase, 'It is the busiest man who has time to spare'. Thus, an elderly lady at leisure can spend the entire day writing a postcard to her niece. An hour will be spent in writing a postcard, another hunting for spectacles, half an hour to search for the address, an hour and a quarter in composition and twenty minutes in deciding whether or not to take an umbrella when going to the pillar box in the street. The total effort that could occupy a busy man for three minutes, all told may in this fashion leave another person completely exhausted after a day of doubt, anxiety and toil.

1. What happens when the time to be spent on some work increases?

- a) the work is done smoothly.
- b) the work is done leisurely.
- c) work consumes all the time.
- d) The work needs additional time.

Here the method of elimination and inference applies. A and D are eliminated at the first reading. The description that the lady who has enough leisure time takes the entire day in writing the postcard

gives us the clue that the correct answer is 'c' .

2. Explain the sentence : work expands so as to fill the time available

for its completion'.

a) The more work there is to be done , the more time needed.

b) whatever time is available for a given amount of work, all of it will

be used.

c) If you have more time you can do some work.

d) If you have some important work to do , you should always have some

additional time.

The answer here is b). This can be found out through simple inference.

A statement is made right in the beginning of the passage and the story

of the lady illustrates the fact that whatever time is available for a

work people tend to use all of it.

3. Who is the person likely to take more time to do work.:

a) a busy man.

- b) a man of leisure.
- c) an elderly person.
- d) an exhausted person.

Here the answer is b). It requires inference from the facts given in the

passage that more the time you have , the more you will need.  
Therefore,

the answer is arrived at through complex inference.

4. What is the total time spent by the elderly lady in writing a postcard?

- a) Three minutes.
- b) four hours and five minutes.
- c) half day
- d) the entire day.

The answer is d). and it is based on the information given in the passage.

5. What does the expression 'pillar box' stand for?

a) a box attached to the pillar.

b) a box in the pillar

c) box office.

d) a pillar type postbox.

The answer is d). It can be derived through implied information. The lady has to go to the pillar box to drop her letter.

Now a one line passage or very short passages comprising only two or three sentences are set. Normally in a short passage there is a basic idea and all points are given to illustrate or analyze or prove the central idea. The answer must confirm to the central idea. The accessory or secondary points may be true but they have a partial identity only and thus they cannot be the correct answers.

### Passage 2:

Accidents on roads can be prevented, provided the quality of

roads is improved and the drivers are instructed in safety rules which they must follow for their own protection. It is also necessary that the illumination on the roads is adequate so as to prevent accidents at night.

1. This paragraph best supports the statement that-

- a) Road accidents are solely due to improper illumination.
- b) Road accidents result in large number of deaths.
- c) Road accidents are man made and are always avoidable.
- d) Safety rules are not taught properly to all drivers.

The answer for this is 'c' , which is the central idea in the given passage.

There is still another variation in which the passage is short, comprising one or two sentences, but the questions are so many. On the basis of Information Elimination Inference formula answers can be located.

Passage 3:

The surprisingly abundant life of the Indian Ocean is confined to the upper layers; the deeper and especially the bottom waters are devoid of oxygen and are often permeated with hydrogen sulphide.

1. The sentence gives the information about
  - a) the life of the people near the Indian Ocean.
  - b) the reason why life exists in particular water layers.
  - c) the reason why oxygen is found in the bottom layers.
  - d) the reason why hydrogen sulphide is found in the bottom layers.
  
2. The bottom waters of the Indian Ocean
  - a) have no oxygen
  - b) have large amounts of oxygen
  - c) have no hydrogen sulphide.
  - d) contain oxygen and hydrogen sulphide.

3. The waters of the Indian Ocean

- a) are devoid of life.
- b) are always permeated with hydrogen sulphide.
- c) have life only in the lower layers.
- d) lack life and it is very surprising.

4. Which of the following is the most opposite of the word ABUNDANT ,  
as used in the passage?

- a) plentiful
- b) minute
- c) insufficient
- d) meager
- e) tiny

5. The sentence suggests which one of the following :

- a) observers are surprised at how little life exists in the Indian Ocean.

- b) Hydrogen sulphide is necessary to life.
- c) both oxygen and hydrogen sulphide are necessary to life.
- d) oxygen is not necessary for marine life
- e) There are different layers of waters in the ocean

**ANSWERS:**

- 1. d
- 2. b
- 3. d
- 4. e
- 5. a

**Passage 4:**

It is not luck but labour that makes man. Luck, says an American Writer, is ever waiting for something to turn up; labour with keen eyes and strong will always turns up something. Luck lies in bed and wishes the postman would bring him news of

legacy ; labour turns out at six and with busy pen ringing hammer  
lays the foundation of competence . Luck whines, labour watches.  
Luck slips downwards to self-indulgence; labour strides upwards  
and aspires to independence. The conviction therefore, is  
extending that diligence is the mother of good luck. In other  
words that a man's success in life will be proportionate to his  
efforts, to his industry, to his attention to small things.

1. Which one of the following statements sums up the meaning of the  
passage ?

- a) Luck waits without exertion, but labour exerts without waiting.
- b) Luck is self-indulgent but labour is selfless.
- c) Luck waits and complains without working while labour achieves  
although it complains
- d) Luck often ends in defeat, but labour produces luck.

2. Which one of the following words in the passage indicate that the  
writer does not ultimately reject the element of luck?

- a) ' Luck .....is ever waiting'.
- b) ' Luck whines'
- c) Diligence is the mother of good luck

d) Luck ... wishes the postman would bring him news.

3. Which of the following statements is true about the following passage?

what does this statement mean?

- a) Hard work of all kinds make people efficient.
- b) Labour lays the foundation of the building.
- c) The writer and the labourer are the true eyes of the society.
- d) There is no worker who works so hard as the labourer who begins his day at six in the morning.

Answers with explanation:

1. The answer is (d) .

It can be derived through inference .Elimination will also help.

(a) and (b) are eliminated easily on the basis of information .

c) and d) are of a general nature, but you may come to the right conclusion by arguing that labour is not always selfless. One does hard labour for a purpose. Again, remember the general hint that you should prefer choice in such cases which includes the largest possibility.

2.The answer is c).

The answer can be arrives at by simple inference.

This is the implication of the passage as well.

3. The answer is d). The information is in the last sentence.

4. The answer is a).

The information given in the middle of the passage

and simple inference will help. The reference to both pen and hammer

implies that the meaning here includes all kinds of work. The pen stands for mental work and hammer for the physical labour.

Passage 5:

The last half of my life was spent at one of those painful epochs of human history, during which world was getting worse and past victories

which had seemed to be definitive have turned out to be only temporary.

When I was young , Victorian optimism was taken for granted. It was thought that freedom and prosperity would spread gradually throughout

the world through an orderly process, and it was hoped that cruelty , tyranny and injustice would continually diminish. Hardly anyone thought of the nineteenth century as a brief interlude between past and future barbarism.

1. The author feels sad about the latter part of his life because:

- a) He was nostalgic about his childhood.
- b) The world had not become prosperous.
- c) The author had not won any further victories.
- d) The world was painfully disturbed during that period of time.

2. The victories of the past:

- a) Brought permanent peace and prosperity.

b) Ended cruelty, tyranny and injustice.

c) proved to be temporary events.

d) Filled men with a sense of pessimism.

3. The word definitive used in the passage means

a) Defined

b) Final

c) Temporary

d) Incomplete

4. During the Victorian age people believed that

a) Strife would increase.

b) There would be unlimited freedom.

c) wars would be fought on a bigger scale  
.

d) Peace would prevail and happiness would engulf the world.

Answers with explanation:

1. The answer is d).

You can hit at the answer through inference. The clue is in the first sentence itself--' the world is getting worse'. The whole passage also implies that the last half of the life of the author was a period of turmoil.

2. The answer is c).

and it can be based on the information given in the passage:the nineteenth century was a brief interlude'.

3. the answer is b).

both information and simple inference suggest this answer.

4. The answer is d). It is based on information.

#### Passage 6:

To those who do listen, the desert speaks of things with an emphasis quite different from that of the shore, the mountain, the valley or the plains, whereas these invite action and suggest limitless opportunity and exhaust less resources, the implications and the

mood of the desert are something different. For one thing , the desert is conservative not radical. It is more likely to provide awe than to invite conquest. The heroism which it encourages is the heroism of endurance, not that of conquest. It brings man up against this limitation, turns him upon himself and suggests values which more indulgent regions suppress. Sometimes it includes contemplation in men who have never contemplated before : And of all the answers to the question- what is a desert good for - 'contemplation' is perhaps the best.

1. In order to receive the desert's message, the beholder needs to be

- a) courageous in his reaction.
- b) conservative in his responses.
- c) A good listener.
- d) Sensitive to nature.

2. The desert is unique among landscapes in that it encourages only

- a) contemplation
- b) Indolence
- c) Heroic Endeavor
- d) Adventurous Spirit

3. If one responds with insight to the mood of the desert,  
it evokes

- a) An inclination for deep thought
- b) The possibility of unending resources
- c) The desire for Heroic conquest
- d) A sense of intense revulsion

4. The writer calls the desert "conservative rather than radical"  
because

it provides an environment that

- a) Inspires man to explore it
- b) Offers unlimited opportunity to conquer
- c) Tests one's Endurance
- d) makes one gloomy

5. What does the phrase "it brings man up against his  
limitations",

mean?

- a) It makes man feel hopeless about his limitations
- b) It makes man aware of his limitations

- c) It compels man to fight against his limitations
- d) It persuades man to overcome his limitations

b) In laboratory tests, increased heat alone accounted for increased aggressive behaviour between members of the test group.

c) Poor socio economic conditions, more uncomfortable in hot weather than

in cold are the direct causes of increased crime.

d) weather control will be possible in the near future.

e) more people leave their doors and windows open during hot weather.

4. In most economies, the government plays a role in the market system.

Government enforces ' ' the rules of the game ' , impose taxes and may

control prices through price ceilings or price supports. These actions

necessarily may create shortages or surpluses. In most developed and

interdependent economies, the necessity of the government's playing same

role in the economy is disputed.

i) Q. The final sentence in the passage suggests that

- a) Interdependence and development goes hand in hand.
- b) There are underdeveloped countries whose attitude toward government control may be hostile.
- c) disputes over government control usually come from an illiterate populace.

b) sleep advance knowledge and capabilities.

c) mindlessness coincides with wakefulness.

d) knowledge and capabilities naturally improve with age  
.

iii) The author's statement might be strengthened if he or she  
point  
out that

a) advanced knowledge is often manifested in creative dreams

b) the mind is quite active during sleep.

c) few empirical studies have concluded that sleep is an  
intellectual stimulant.

d) advanced capabilities are not necessarily mind associated.

e) dreams teach us how to use waking experience more  
intelligently.

iv) The author's statement might be weakened by pointing out that

a) eight hours of sleep is a cultural , not a physical requirement.

b) the more capable people rarely sleep.

c) rest is a positive contribution to knowledge and capability.

d) young children enjoy themselves less than knowledgeable adults.

e) people rarely waste time during their waking hours.

### **Answers and explanation.**

1. answer is e.

whistler is saying that constant effort (industry ) is necessary  
but that

the artwork ( production) should not evidence that effort.

2. answer is a.

By describing in very positive terms the effects of public deliberations,

the author suggests the opinion that such deliberations should be public.

3. answer is b.

The only correct choice is II. it is argued that hot weather causes crime.

This is not mere confidence, and the statement does not say that we can control the weather.

4. i) answer is b.

The last sentence says that developed or interdependent economies acquiesces to the idea that government must control the economy

to some extent. This leaves underdeveloped countries unspoken for and raises the possibility they might not acquiesce to government control.

ii) answer is b.

The paragraph states that government action may create shortages or surpluses.

5. i) answer is d.

The author doesn't address the distinction between how much sleep we

desire and how much our bodies require. Each of the other distinctions

is addressed in the passage.

ii) answer is d.

the passage suggests that more sleep is undesirable, knowledge and

capabilities are connected wakefulness, and mindlessness is connected

with sleep.

iii) answer is c.

choices a, b, e present information that supports the value of sleep

and d) disassociates capabilities from the mind thus damaging the authors mind/mindlessness distinction.

iv) answer is c.

only choice c asserts the positive value of sleep and thus weakens

the author's stance in favour of decreased sleep.

A B C D

10. No sooner the news appeared in the paper/ than / there was a rush / in the counter/  
A B C D

**Answers and Explanation**

1. B
2. A
3. C
4. D
5. B
6. C
7. C
8. D
9. C
10. A

1. 'Ring him up' in place of 'ring him'. Ring up is the correct idiom.

2. 'I enjoyed myself' in place of 'I enjoyed'. Some verbs take reflexive pronouns after them.

3. 'Hung' in place of 'hanged'. 'Hanged' is used for living beings and 'ung' is used for other objects.

4. was killed in place of were killed.

5. had begun in place of began

6. 'preferable to' in place of 'more preferable than'. 'preferable' is a word indicating a comparative sense and thus is more superfluous. Secondly 'prefer' is followed by 'to'.

7. 'nor' in place of 'or'. Nor is used after neither.

8. 'Has been' in place of 'have been'. When two subjects are joined by 'or'. It is treated as singular.

9. 'To those' in place of 'than that', 'superior' is followed by 'to'. Techniques is a plural subject and thus the pronoun for it must be plural. Thus 'those' in place of 'that'.

10. 'No sooner had the news appeared' in place of 'No sooner the news appeared'. 'No sooner' is used in 2 forms.

1. No sooner had and
2. no sooner did.

## PRACTICE SET 2:

1. John's salary is much larger than Tom.
2. Ramesh helped not only me but also
3. Give me three thousands rupees, please.
4. More than two boys were present in the class.
5. More than one person have found it correct.

7. The English defeated french in the battle of Waterloo.
8. The three last chapters of this book are very interesting.
9. In summer ,days are warm than nights.
10. A large number of houses are coming up in our town

### Answers with Explanation

1. ' That of Tom' in place of 'Tom'
2. No error. The sentence is correct.
3. ' Three thousan ' in place of ' Three thousands ' . Some nouns when preceded by a numeral remain unchanged in form.
4. No error .The sentence is correct.
5. ' Has found ' in place of ' have found ' . More than one is singular.
6. ' Is ' in place of 'are' . ' Three- fourths ' make one unit and thus it is singular.
7. ' The French' in place of ' french ' . ' The French ' means ' The French people.
8. ' The last three ' in place of ' the three last'
9. ' warmer ' in place of warm. Here the sentence is in the comparative degree and thus 'warmer' is appropriate.
10. No error .The sentence is correct.

## PRACTICE SET 3:

1. They appointed him as a manager as he is efficient.
2. The reason of his failure is due to his intelligence.
3. The prices of this article considerably varies in different parts of the country.
4. Mr.Sharma is planning to settle in Delhi as soon as he will retire in April next year.
5. One should always take care of his health .
6. Mary is smarter than anybody in her class.
7. I lived in a three- hundred – years old house in Bombay.
8. He is the strongest and very tall boy in the whole college.
9. I was born on the March 31st 1984 in Bihar.
10. The principal offered me tea but I denied it.

### Answers and Explanation

1. 'Manager' in place of 'as a manager'.
2. 'Due to' should be deleted. The reason is sufficient.  
'Due to' is a duplication and thus is superfluous.
3. 'The price' in place of 'The prices'.
4. 'He retires' in place of 'he will retire'.
5. 'one's' in place of 'his'. 'one' is followed by 'one's'.
6. 'Anybody else' in place of 'anybody'.
7. 'Three hundred years' in place of 'Three hundred year'.
8. 'The stronger and tallest' in place of 'very tall'. A word showing superlative degree should not be joined by a word showing comparative or the assertive degree. Both qualifiers must be of the same degree.
9. 'On 31st March' in place of '31st March'. When the letter or the number form is used, the article will be used. Thus we can say '31st March' and 'the thirty first March'.
10. 'declined' in place of 'denied'.

## PRACTICE SET:4

1. Even though he was over ninety he still enjoyed reading novels and sometimes spend an evening at the cinema.
2. Up to the time the last vote was recorded it was difficult to decide whether victory lay with the ruling party or the opposition.
3. We should always side with those who are true and unselfish and work for others.
4. I will now deal with him in a manner different from the one I have adopted so far.
5. His manners indicate that he has no other intention than to steal his money.
6. Page after page of Gita were read and it gave great consolation to his mind.
7. He was unanimously elected the General Secretary of our Association.
8. Before giving the mixture to the child shake it thoroughly.
9. The short story should not exceed more than two hundred words.
10. He looks at everything from their best side.

## Answers with Explanation:4

1. 'Spent' in place of 'spend'. The reporting verb is in the past tense and thus all other clauses must be in the past tense.

2. 'Lied' in the place of 'up to lay'
3. 'who work for others' in place of 'work of others'. One form of the verb pattern should be used with one subject. If the verb pattern changes the subject must be mentioned. Here the subject is 'those who' and the verb is 'are'. It is an auxiliary verb. Thus there must be a subject.
4. 'I have been adopting' in place of 'I have'. Here the tense should be continuous tense.
5. 'But' in the place of 'than'.
6. 'The Gita was' in place of 'Gita were'.
8. 'It' is confusing. It is not clear whether 'it' is for the mixture or the child. Thus better to use the word 'the mixture'.
9. 'More than' should be deleted. Double comparatives are to be avoided. 'Exceed' is sufficient.
10. 'Its' in place of 'their'. See the rules of pronouns. The pronoun for everything is 'its'.

## **SENTENCE COMPLETION**

1. More insurers are limiting the sale of property insurance in coastal areas and other regions ----- natural disasters. [E]

a) safe from    b) according to    c) which include    d) despite    e) prone to

Explanation:

It is easy enough to understand that insurers don't like to insure the property in places where natural disasters are likely to happen. The term prone to in [e] means having a tendency to, so it is correct.

2. Roman Regions ----- the Mountain ----- of Masada for three years before they were able to seize it. [C]

- a) dissembled----- bastion      b) assailed-----symbol  
c) besieged ----citadel              d) surmounted-----dwelling  
e) honed-----stronghold

Explanation:

If it took Roman regions three years to seize Masada, we can predict that they spent a long time "surrounding or isolating" the mountain fortress or strong hold of Masada before they were finally able to take it [c] is the best choice. [b] assailed, meaning "attacked" would make sense. And [e] strong hold and [a] bastion would fit too. But [a], [b], [e] 's first position words don't make sense when plugged in.

Besieged : Surrounded with armed forces.

Citadel : fortress

assailed : attacked

bastion : fortified area

honed : sharpened

3. Unlike his calmer, more easygoing colleagues, the senator was---,  
ready to quarrel at the slightest provocation. [B]

a) whimsical    b) irascible    c) gregarious

d) ineffectual    e) benign

Explanation:

If the senator was unlike "his calmer, more easygoing colleagues"  
and "ready to quarrel at the slightest provocation" it's fair to  
infer that the senator was short tempered or extremely irritable.  
The best choice is [b] irritable.

Irascible : easily angered

whimsical : unpredictable

gregarious : sociable

ineffectual : unproductive

benign : harmless

4. Although historians have long thought of Genghis Khan as a---  
potentate ,new research has shown he was -----by many of his  
subjects. [B]

- a) tyrannical ----abhorred      b) despotic-----revered  
c) redundant --- venerated      d) jocular-----esteemed  
e) peremptory-----invoked

Explanation :

Here we don't have to know that Genghis Khan was a violent dictator to get his question right .The first word of the sentence ,although ,implies that the two blanks have to contrast with each other .[b] is the best choice. Although historians had thought that Genghis Khan was a despotic potentate ,new research shows that many of his subjects nevertheless revered him. [a] tyrannic synonyms with despotic, [a]'s abhorred ,doesn't provide the contrast which is predicted . Choice [c] venerated doesn't really contrast with redundant and [e],it doesn't make sense to say that Khans subjects invoked him despite his peremptory reputation.

Despotic : dictatorial

potentate : dictator

revered : worshiped

abhorred : hated

venerated : highly respected

redundant : repetitive

jocular : jolly

peremptory: putting an end to debate

invoke : call upon for help

5. Jill was ---by her employees because she often ---them for not working hard enough. [B]

- a) deified ----- goaded                      b) loathed-----berated  
c) disregarded----- eulogized      d) cherished-----decided  
e) execrated-----lauded

Explanation :

we can predict two positive words, like Jill was appreciated by her employees because she often forgave the fact that they were lazy, or two negative words like Jill was disliked by her employees because she often scolded them for being lazy. [b] matches the later prediction .Jill was loathed by her employees because she often berated them for not working hard enough. No other choice besides {b} contain two like charges.

Loathed : hated

berated : scolded

deified : made godlike

lauded : celebrated

derided : made fun of

execrated : cursed

6.Reconstructing the skeletons of extinct species like dinosaurs is ----- process that requires much patience and effort by paleontologists.[E]

- a)a nascent    b)an aberrant    c) a disheveled    d)a worthless  
e)an exacting

Explanation:

If reconstructing the skeletons of extinct species like dinosaurs requiresmuch patience and effort by paleontologists ,we can predict that such an activity is a painstaking or tough ,demanding process.  
[e] is the best choice.

Exacting : requiring lots if attention and extreme accuracy

nascent : introductory or starting

aberrant : abnormal

7. Nearly ----- by disease and the destruction of their habitat ,  
Koalas are now found only in isolated parts of eucalyptus forest  
.[C]

a)dispersed      b)compiled      c)decimated      d)infuriated  
e) averted

Explanation:

Because of disease and the destruction of their habitat ,Koala are  
now found only in isolated parts of eucalyptus forest .The word  
in blank must mean something like "killed off" or "destroyed",  
since things like disease and habitat destruction are destructive  
process [c] is the best choice. Decimated or wiped out by  
disease and habitat destruction , koala are now found only  
isolated parts of eucalyptus forest. [a] dispersed , meaning  
"scattered " ,may have been a little tempting ,but there is no  
reason to assume that the Koala were scattered around the forests  
due to disease and habitat destruction

dispersed : scattered

compiled : collected , arranged

averted : avoided

8. Deep ideological ----and internal power struggles---the government. [E]

- a) disputes....facilitated b) similarities.....protracted
- c) distortions .accelerated d) agreements.....stymied
- e) divisions.....paralyzed

Explanation:

From the first blank ,if there were " internal power struggles " in the government then it's likely that the government had something like deep ideological difference or conflicts .For the second blank ,we can predict that these conflicts and power struggles harmed or crippled the government although [c] 's first blank distortions , like difference or conflicts , [a] , [e] make more sense .we can easily imagine "deep ideological disputes " or deep ideological divisions ,But it is hard to imagine ideological distortions.

Distortions : twisted versions

facilitate : assist

stymied : impeded , frustrated

9. It is ---- that a people so capable of treachery and brutality

should also exhibit such a tremendous capacity for heroism .[C]

- a)unfortunate      b)explicable      c)paradoxical      d)distressing  
e)appalling

Explanation :

Here ,brutal , on the other they are heroic , description of two contradictory characteristics which exist in the same group of people . Such an occurrence is termed a paradox and therefore [c] paradoxical is the correct answer Choices[a] , [d] and [e] are wrong. It is unfortunate ,distressing and appalling that they are brutal but not that they are heroic

Paradoxical : opposed to common sense but it is true

explicable : able to be explained

10.Despite their fierce appearance ,caymans are rarely-----,  
and will not attack humans unless provoked .[E]

- a)extinct      b)timid      c)domesticated      d)amphibious  
e)aggressive

Explanation :

Despite is our first clue word ,despite their fierce appearance ,  
caymans are actually rarely ,to the point at which they wont  
attack humans unless provoked so for the blank we need a word

that means the same as " fierce ".The closest word here is choice [e] ,aggressive .[b] was exact opposite of what we wanted [c] domesticated, means tame ,and usually refers to animals treated as house pets.

11. Some historians claim that the concept of courtly love is a----- that dates from the age of chivalry ,while others believe it has more ----- origins.[B]

- a) relic .... simultaneous                      b) notion.....ancient
- c) memento .... discovered                    d) period.....documented
- e) doctrine.....amorous

Explanation :

Let us start with second blank ,one group argues that courtly love " dates from the age of chivalry " in other words ,they think its a fairly old idea ,dating back from the days of knights and fair maidens. Another group think something else though ,so they must feel its either an old idea. A quick check through the answer choices for the second blank leads us to choice [b] ancient. Notation or idea, fits quite nicely into the first blank ,fitting with the word " concept" in the first half of the sentence.

12. In Shakespeare's day ,---theater audience would often through

fruits and vegetables at actions who failed to live up to their expectations. [D]

- a) doting          b) ravenous          c) jingoistic          d) boisterous  
e) stagnant

Explanation:

Here people like this kind are surely not doting [a] . over indulgent or excessively fond , nor or they ravenous [b] . or extremely hungry . If they were hungry , they'd eat the food instead of thouing it at the stage. There is nothing to imply that the audience is [c] jingoistic , or excessively nationalistic. However the audience might certainly be described as [d] boisterous , or rowdy . [e] stagnant means dead or lifeless , which is illogical in the blank.

13. Although they physically resemble each other , the brothers could not be more --- temperamentally ; while the one is quiet and circumspect , the other is brash and ---

- a) inimical .... timid          b) passionate ... superficial  
c) dissimilar ..... audacious          d) different ..... forgiving  
e) alike ..... respectful

Explanation:

Although two brothers look a like , they could not be more in

terms of their personalities "not alike" a different or same such word must go into this first blank, something that helps convey that they look alike, but their behavior is not alike. While one is circumspect, or cautious, the other word is brash or the opposite of cautious. For this second blank, you should predict something that means the opposite of quiet, something that's sort of synonyms with brash. The best answer is choice [c], because dissimilar fits over prediction for the first blank, while audacious means bold it's kind of a synonym for brash. [a] inimical is related to the word "enemy". Inimical means hostile.

14. The retreat of Napoleon's army from Moscow quickly turned into a rout as French soldiers, already---in the snow, were--by Russian troops. [D]

- |                             |                              |
|-----------------------------|------------------------------|
| a) replenishing.... ravaged | b) pursuing.....joined       |
| c) sinking .... camouflaged | d) floundering.....assaulted |
| e) tottering.....upbraided  |                              |

Explanation :

Napoleon's army was hightailing it out of Moscow. The retreat "quickly turned into a rout", a state of wild confusion, a disastrous defeat. Why did it turn into an even bigger defeat? Probably because the French were doing well traveling through snow, it's unlikely they would end up being such big losers. Then something was done to them by Russian troops. Well if you know that Napoleon's army was routed by the opposing side, then

it seems that we want a second blank word that means something like "clobbered" choices [a] , [d] come close to that prediction. Ravage means to violently destroy. Now ,going back to the first blank , we know we want something that implies the troops were starch or struggling in the snow. Only choice is [d] fits both blanks. The retreat of Napoleon's army turned into a rout as French troop already floundering in the snow ,were assaulted by Russian soldiers. To flounder is to struggle awkward and stumble about. In [a] , replenishing in the snow sounds a bit weird replenishing means replacing something that was used up. In [e] , tottering means walking unsteadily , and upbraided means scolded or reprimanded a little mild -mannered for our purpose here.

15. The Morgan library in Newark provides a-----environment in which scholars work amidst costly tapestries , paintings , stained-glass windows , and hand -crafted furniture. [C]

- a) realistic      b) frugal      c) sumptuous  
d) friendly      e) practical

Explanation :

We want a word that describes an environment composed of tapestries, paintings, stained glass windows, and hand crafted furniture .

A quick survey of the answer choices leads us to choice [c] , because sumptuous means costly or lavish , particularly with regard to furnishings and decor. While you might have been tempted to think that friendly in choice [d] was a plausible answer , it is hard to

say to sure that an environment filled with rich ,arty items isa friendly environment.For some people ,such surroundings might be quiet intimidating . Frugal ,in choice [b] ,means thrifty or careful with money ,which is quite the opposite of what we wanted here.

16.The lecturer's frustration was only -----by the audience's--- totalk during her presentation.[A]

- a) compounded ... propensity    b) alleviated ...invitation
- c) soothed ... authorization    d) increased ... inability
- e) supplanted.....desire

Explanation :

Her a lecturer is frustrated by something her audience has done. This frustration was only by some connection between the audience and talking.It sounds like the lecturer was frustrated by her audience desire or tendency to talk during her presentation. Lecturer want to be heard ; an audience's inability or lack of desire to talkwould not frustrate a lecturer. So , for the second blank ,we want something like desire choice [a] propensity, or tendency ,and choice [e] desire could work. [c] make no sense. Supplanted ,or replaced ,is illogical .So [a]'s gotto be correct. The lecturer's frustration was compounded or increased ,by the audience propensity ,or tendency to talk.

17.The proposal to build a nuclear power plant was the most ---- issue ever to come up with a council meeting , it is astonishing

,therefore ,that the members vote was unanimous.B]

- a)popular      b)contentious      c)concise  
d) exorbitant      e)inconsequential

Explanation:

There is something about the issue of the nuclear power plant that makes itsurprising the council all voted in argument. The issue must have been divisive or controversial .The answer here is choice [b] ,because contentiousmeans causing controversy and disagreement .Concise in [c] means brief and to the point ,while exorbitant in [d] means extravagant or excessive.

18.The itinerary set by their travel agent included so many stops in ---- amount of time that they received only the most ----- impressions of places visited. [B]

- a)a limited... lasting      b) a brief.....cursory  
c)a generous .. favorable      d)a sufficient...fleeting  
e)an unnecessary.....preliminary

Explanation:

So many stops in some particular amount of time led to only the most ... impression about the places the tour visited . There is a connection between the amount of time spent visiting , and the impression of places visited. So the words that will fill

in the blanks must be roughly synonyms. Only choice [b] works here.

There were so many in such a brief amount of time that only a cursory impression of places was gained. [d]'s second word fits the blank but [d]'s first word, sufficient, isn't a rough synonym and doesn't fit. In [a], many stops probably wouldn't leave a lasting impression. Nor would a tour at breakneck speed necessarily leave [c] a favorable impression on travellers.
